

Two PhD positions with top up scholarship available at the Centre for Eye Health beginning early 2018

The Centre for Eye Health has two PhD positions available with top up scholarship and guaranteed one day clinical work. The top up scholarship is contingent on receiving the Domestic Research Training Program (RTP) - previously called Australian Postgraduate Award or similar scholarship.

Join an award winning organisation with an energetic, industry leading clinical and research team that presents at National and International conferences, with access to over seven years' worth of clinical data.

You will be led by Centre Director Professor Michael Kalloniatis, who with over thirty years of research experience was recently honoured with the University of Houston Distinguished Alumnus award for service to optometry.

You will also get teaching, lecturing and tutorial experience.

Funding Breakdown

Domestic Research Training Program (RTP) Guide Dogs	\$26,682	} Tax Free
NSW/ACT Stipend	\$17,775	
Centre for Eye Health Clinical Salary (Depends on Level)	\$19,250	

Here are some of our current PhD students and their work
