

PhD positions available at the Centre for Eye Health

The Centre for Eye Health has ongoing opportunities for PhD positions available contingent on a candidate's ability to secure a competitive scholarship through the Domestic Research Training Program (RTP) previously called Australian Postgraduate Award (or similar scholarship).

CFEH Research boasts a dynamic and highly successful team consisting of students, early, and mid-career researchers. We are affiliated with UNSW Sydney, one of Australia's top universities and are located within an award winning organisation.

As researchers, we are fortunate to work alongside an exceptional clinical team who assist in the collection of research data. Additionally, we have access to over 7 years of historical data and a large patient database from which to draw for our research.

Potential Funding Breakdown

Domestic Research Training Program (RTP)	\$27 082	}	Tax
Potential for a top-up stipend*	\$17 775		Free

* Subject to eligibility and availability of funding
